

# Learn How to Muscle Test!

*Lecture & Hands-On Workshop with Diane Angela Fong, ND*

You won't want to miss this 2-hour lecture & workshop  
where you will learn how:

- Commercial foods are an epic health failure!
- Environmental factors such as GMO foods and the toxins sprayed on them are altering your genes for the worse.
- Every human has an energy field that can be used to access health information about the body.

You will receive an informational booklet and muscle testing kit to take home that will allow you to find your energy field, test environmental stressors, and find remedies to address the most common health problems. This class will give you a deeper understanding of your health and the diagnostic and treatment tools used by Dr. Fong. After this workshop, you will be able to physically measure anyone's energy field and muscle test yourself, family & friends to understand health stressors and remedies!
